Alcock's Porous Plasters.
Calle San Jose 755, Buenos Ayres,
4th Feb. 1881.
J. A. Bennet, Esq.
195 Florida,
Dear Sir,
I have great pleasure in testifying to the efficacy of Alcock's Porous Plasters.
In 1876 I was attacked by Acutn Rheumatism in this city, for which the three Doctors who attended me could do absolutely nothing.
After being in bed for 9 months, unable to move any of my limbs, I was advised by a friend to try Alcock's Porous Plasters. I did so, and in 15 days I was completely cured, returning to my work on the City of Buenos Aires Improvements for Mr J O Simpson.
This fact is known to hundreds of persons here. You are at perfect liberty to publish this, and I trust it will induce others similarly afflicted to try them; they are certain to be benefited by them.
I remain,
Very truly yours,
W. MURPHY.

Associated Press Telegram
HAVAS' AGENCY

Paris, 12th

The mutiny of regular troops at Cairo, at first considered insignificant, has developed into open revolt against the Khedive. No serious disorders as yet. Reports of the cause of the revolt are contradictory, and it is difficult to gauge the possible consequences of the movement.

THE INDIANS.

But a few weeks have elapsed since we called the attention of the National Government to the utterly inadequate number of troops on the Southern frontier, and the news we give at foot is a sad proof of the correctness of our views. The frontier service has always been a byeword, but the public were led to believe, and did for a short time believe, that under the present Administration there would be a decided improvement in the way of security for life and property on the frontiers. Unhappily, the very reverse seems to be the case: There is undoubtedly more life and property on the frontiers to protect, but the number of protectors has not been increased, nay, appears to be even less than formerly.

IT IS, even to the non-military mind, a patent absurdity to send 100, 150, or 200 men to guard the most vulnerable part of a frontier line hundreds of miles in extent, and the massacre we report to-day is as discreditable to the military authorities as it is painful. How can a handful of troopers be expected to fight with success the numerous hordes of Indians, deserters, 'gauchos', and escaped criminals ever prowling about the frontiers? We should say that 2,500 or even 3,000 men, well mounted, would not be too many to ensure settlers on the Southern frontier the security they have been so often promised and to which they have such undoubted right. But the few soldiers sent to cope with the frontier savages are not only not well mounted, but are too often not mounted at all: and we see by the *Porvenir* of Bahia Blanca that Commander Farias, of the 1st of the Line, has lately swept off numbers of horses belonging to estancieros to mount his men, and this too, our colleague says, without giving receipts or any vouchers to enable the owners to claim payment hereafter—not that we would give much for their chance of it.

We had hoped that the days of this kind of 'expropriation' were over, but it appears not, and the fact of the matter is, that these ever-recurring Indian raids, the murder of settlers and sacking of property, the carrying off of horses by marauders and the Government troops alike, with other untightened screws, have caused such a revulsion in public opinion, that many are now of accord that the lands which the Rio Negro Expedition secured to the country must remain unpopulated for years to come. We hope not. It is a question for the War Office, and the sooner that Department takes the settlement of it vigorously in hands the better for the country.

The following are the sad particulars of the massacre of the troops:—

The Indians began operations by stealing nearly all the horses of the 9th Cavalry (Colonel Rodriguez), which prevented the regiment from pursuing the savages. Colonel Rodriguez despatched Lieutenant Daza with 16 men, on the best horses he had, to pursue the savages and recapture the stolen chargers. Major Daza, the Lieutenant's brother, marched to join the pursuit. When Lieutenant Daza arrived at Truru-Lavquen, 70 Indians fell suddenly on his 16 men. The savages, amongst whom were several deserters and gauchos, had firearms. The little band of troopers fought heroically, so heroically that Daza and 14 of his men were left dead on the field, the remaining two escaping as it by a miracle, but wounded. The loss of the Indians is not known. The fight was truly desperate—hand to hand—body to body. Poor Daza was only seventeen years of age, a brave boy.

Although the fight took place on the 28th inst., the two wounded troopers took so long to reach the telegraph station that the bad news only came to hand yesterday. Truru-Lauquen is a long distance from Carhue, north of the Colorado.

Colonel Rodriguez and Major Daza went in pursuit of the Indians when the news of the butchery reached them. This bloody affair has just occurred at the moment when President Roca has decided to move the frontier Head Quarters from Carhue to Truru-Lauquen, which is 50 leagues S.W. from Salinas Grandes. The sooner the general battue of the Pampas, ordered some time ago, takes place the better. This massacre of 14 brave men led by a gallant boy in his teens, has created a most profound impression on the public. It was the main topic in all circles yesterday.

POST OFFICE REPORT.

The Post Office returns of a country are the most unerring evidence of its educational status. We have before us our own Post Office report just published, and although it bristles with interesting facts relating to the international and home exchange of correspondence, this book is a lesson to us all. The figures of the international correspondence are as follows—

	Letters	Prints
South America.....	629,736	513,267
N. and Central America	16,252	12,650
Europe	958,651	259,939
	1,604,669	785,696

Thus the communications with Europe are much larger than with the S. American countries around the republic. This may account for the great ignorance in which South American republics live with respect to each other, and is one of the causes of the lack of unity on this continent. Anybody might suppose that the literary intercourse with our neighbors would be vastly larger than with the old world. Unhappily, education is in its infancy in South America, and the large preponderance of foreign letters points eloquently to the foreign element in this republic. That such is the case can be easily gathered from the subjoined figures, which show that in the interior provinces of the Republic, where there are few foreigners in comparison with Buenos Aires, correspondence is at its very lowest ebb.

	Letters	Prints
Buenos Aires.....	5,000,000	2,800,000
Santa Fe.....	650,000	250,000
Entre Rios.....	450,000	250,000
Cordoba	165,000	100,000
Corrientes.....	115,000	70,000
Tucuman.....	115,000	6 ,000
Mendoza.....	78,000	43,000
San Luis.....	72,000	37,000
Catamarca.....	60,000	97,000
Salta.....	43,000	25,000
San Juan.....	40,000	30,000
Rioja.....	40,000	30,000
Santiago Estero....	24,000	15,000
Jujuy.....	12,500	10,000

The above figures refer to correspondence within the limits of the Republic. These figures bear no proportionate rates to each other, and tend to show how vastly superior Buenos Ayres is to the remainder of the Republic. Next year's report will tell the figures of Buenos Ayres, as a province and without the capital, and we may already anticipate that this city figures alone for three quarters of the total correspondence carried on in the Republic.

The prints form an interesting item, but the figures are deficient; more than 2,800,000 prints have been circulated in this city and province during the year. B. Ayres has over twenty daily newspapers, and there are twice that number in the country towns of the province. The papers distributed directly in town are not included in the figure, but even so the disproportion is great, unless one accepts as an axiom that Buenos Ayres newspapers have very few subscribers in the camp.

It is perfectly useless to talk about Jujuy, where letter-writing must be an extraordinary event in the history of the province, and we are rather astonished to see Rioja figure for more than Santiago del Estero. These statistics point to the very retrograde condition of many of the Interior provinces, in spite of Post-office facilities, telegraph-wires, school-benches and National colleges. Ignorance should not be so much inferred from the figures as a singular apathy evident in the people as regards correspondence: in the Interior there is little trade and therefore little room for letter-writing, and many will acknowledge that wealthy people in this republic like their European prototypes, consider letter correspondence an insupportable bore. What the Interior wants is some trade, and with it the returns of the post-office will increase in geometrical ratio.

LATEST FROM MENDOZA.

Mr. Editor,

In conclusion of the slight description contained in my last correspondence of some surroundings of the town of Mendoza, I will now give your readers some insight of what is to be seen on leaving the city and going in an easterly direction.

First of all, the extensive department of Guaimallen has to be traversed in its entire length, joining

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipu

as it does and forming almost a part of Mendoza, the only distinguishable separation being the 'Canal Sanjon,' already mentioned in one of my former epistles. On the banks of this 'canal' a very important work is just now in progress, with a view to avoid the dire effects of severe inundations to be expected during the approaching summer months, on the melting of the large snow deposits which are known to have accumulated this year in the Cordillera. These works of excavation, in extent some 1,500 metres, have been taken by contract with the Provincial Government, for the amount of 5,000 and odd dollars; they can only be considered provisional or for the purpose of momentarily staving off impending danger, the real remedy having to be eventually sought for at a distance of some 30 miles to the south, and at very great outlay, which the impoverished state of the province does not allow the authorities to make for the present. Guaimallen is one of the largest and the most thickly-populated departments of the province: by far the greater part of the soil is under cultivation, and it contains several large flour mills, coach factories and other industrial establishments, the principal industry being, however, of course, agriculture in all its branches. Of vineyards it has a large number, some of them being owned by the richest amongst our 'hacendados.' Here the high road to Villa Mercedes has its commencement, and the principal Mendoza Railway Terminus will undoubtedly be situated within the boundary of this department, in accordance with the original survey of the Government engineer, Sr. Elias.

The high-road, after leaving Guaimallen, continues to run through a well-cultivated district, and at a distance of from seven to eight leagues crosses the river Mendoza, over a solidly-built stone bridge, at a point called Palmyra, where is situated the largest and, perhaps, the best-built flour mill in this province, originally owned by a Chilian refugee, who settled here after the well-known revolution of the brothers Gallo, but now the property of Mr. Mallmann, of Buenos Aires. At a short distance beyond this mill another large building is seen, created, for the production by steam distillery, of spirit from grain, the first, and by far the largest establishment of the kind ever set up here; it is now, fortunately or unfortunately, as the case may be, at a stand-still, through the failure of the banking house of Gonzalez and Co., being owned by one of the partners of this firm, the late high prices ruling for grain having, however, something to do with its closure, for all the partners of the late banking firm are to-day probably wealthier than they were before.

From three to four leagues further on the town of San Martin is reached, capital of the department of same name, very pleasantly situated, and containing some 4,000 inhabitants. The surrounding country is principally occupied as grazing land, the water supply being introduced from the river by a canal or 'desâgue' of good construction. San Martin has in its immediate neighbourhood, only two or three leagues distant, the flourishing places of El Rotámo and San Isidro, the former being the capital of the adjoining large province of Juuin: both of these show great signs of prosperity and commercial activity, forming together a most pleasant prospect when reached by the road coming from Villa Mercedes, after crossing the immense pampas of this province and of San Luis.

The next point touched at on this high-road is the village of Santa Rosa, so well known from the fact that in its vicinity was fought the celebrated battle of that name, in the year 1874, when General Arredondo so signally came to grief. There is not much to be said about this neighbourhood, though it has, no doubt, a future before it, and only awaits the arrival of the locomotive for its natural resources to be developed. The last point reached before crossing into the adjoining department of San Luis is the frontier village of La Paz, where one of the principal stations on the line of railway will, no doubt, be situated, and it is from this spot that the San Juaninos have the pretention to carry a branch line of railway direct to the capital of their province.

This letter will be continued on the first opportunity by your

THE COLON THEATRE.

Those who missed 'Si j'etais Roi' at the Colon on Tuesday lost a musical enjoyment of high order. From the first bars of the oft-played but every pleasing overture down to the final trio, orchestra, chorus and solos interpreted their respective scores in a manner beyond which not even the oldest stager could exact. Boieldieu, Adam and Herold may be set down as the modern representatives of the pure French School of Opera unalloyed by plagiarisms from the Italian or German. Unfortunately, the inspirations they have bequeathed us are few, Who could suspect in the author of that simply beautiful operette, Le Chalet, the writer of such an opera as Si j'etais Roi, with its grandly impressive choruses such as that of the fishermen in the first act, and that of the Bridal March in the 2nd. Throughout, the orchestration is of a masterly description, and the gifted composer reminds the listener on many occasions how sympathetically the violoncello harmonises with the voice. There are, indeed, delicious passages for violins and reed instruments, and constantly the accompaniments purl in and out, soft as the murmur of hidden brooks.

We had occasion to note how serviceably the piano stood for the harp.

The opera, in a word, overflows with melodious arias, solos, duos and 'morceaux d'ensemble.' Mdlle. Leroux undeniably carried off the palm. Her vocalisation in the bravura air, first act, was very delicate and precise, sweet even when singing the most 'forte,' and particularly excellent in the crescendo passages, thus exhibiting the conscientious ability of an artiste of the best school. The waltz movement was charmingly given, and in her final thrill she won from the audience sincere and prolonged applause. The Turkish costume becomes her 'a ravir.' Mahomet himself could not have idealised a more bewitching Nemea than Mdlle. Leroux.

The tenor, M. Mauras, acted and sang well, but not so well as in Carmen (so far the 'cheval de bataille' of the troupe). His voice during the first act was slightly rough, and this was the more apparent as he had some very trying solos in which sustained notes frequently occurred. Still he left a most agreeable impression, especially in the love duo, third act, and there is no question as to his being an earnest actor and a good musician. It struck us that in 'Carmen' we had never (with the exception of Faure as Don Juan) seen such thoroughly lifelike acting as that of Monsieur Mauras.

In this opera the baritone Monsieur Maugé, has a most important role and both in solo and in conjunction with the soprano he sang in good form. On occasions he emits a really good falsetto note and showed in the drinking song a style rarely met with except in Italian Companies of fame. The secondary characters were well filled in; the scenery, dresses and 'mise en scene' of the 2nd act displayed technical talent which may be pronounced faultless, and on which we compliment the Stage Manager and Director.

EDITOR'S TABLE.

The Royal Mail s.s. Tamar goes to-day. Mails close at 1 p.m,

The horrid massacre, by Indians and deserters, at Trarú-Lauquen, of Lieutenant Daza, a boy of 17, and 14 out of the 16 troopers who were with him, is a sharp lesson to the War Office authorities and frontier commanders. The blunder of sending such a handful of men after an unknown number of savages and desperadoes is quite unpardonable; but the whole frontier service from top to bottom is out of joint and almost worthless. Minister Victorica should not lose a moment in reorganising it, not on paper, we have had enough of that, but in a genuine and effective way. To add to the public indignation at this lamentable business, it is added that Commander Farias and his men are coolly expropriating all the horses of the estancieros, for the service of the state. Is this monstrous abuse never to be stopped? Why does not the Argentine War Office do as the English, French, German, or any other civilized War Office—*buy*, not *take* horses for the State service, and buy so as to have an adequate supply always on hand? Plentiful as horses are in this country, they have not yet come to be regarded as on a par with umbrellas, which it is considered no crime to take possession of and never restore, or pay for. Military affairs on the frontier are in a precious mess, and there is no disguising the fact. Since the death of the Prince Imperial of France we have read nothing so affecting as that of this heroic lad of 17—his mother's darling probably—who fought like a Bayard, as did the 14 veterans he led so gallantly. Rest them all.

Several British subscribers have requested us to say to Mr Moreno, the great Argentine explorer, who is to be the Director of the National Museum about to be established in this city, that, if he wants a thoroughly competent man for the Natural History department of the Museum, that man is our energetic and highly talented young countryman Mr Ernest White F. Z. S. There is no man in the country, even of twice his years, who is so well fitted for the post we suggest for him as Mr. White, Let genuine merit have a chance, just for once.

The latest news from Peru is that our distinguished countryman General Lynch, the Chilian Commander in Chief, has so little confidence in President Calderon's troops, that he has disarmed all those stationed at Chorillos, Magdalena and Miraflores. Reinforcements are being sent from Valparaiso to Callao. Is this unfortunate Ten Cents War never to come to an end.

Nothing fresh from Montevideo. The ubiquitous Latorre is now said to be again in Brazil. Is he?

There was a dreadful 'temporal' in Rosario on Monday night, involving Blue Ruin for the quintas and chimney pots, but, strange to say, no damage was done to the vessels in the port.

The report of the new chief town for the Province Committee will be out in a day or two. The Commissioners do not recommend any special place, but set forth the merits and demerits of the several aspirants, leaving the final decision to the Government.

This year is the first in eleven that the Racing Club has had to postpone a race. Bets are being made as to next Monday being another roaring wet day, but our unerring barometer says that the 'Bears' will lose and that there will be no fall in rain on that day.

To-morrow will be the grand night of the season at the Opera House—repetition of Faust and Checkmate by the British amateurs. Last rehearsals come off this evening. Not many seats left, so 'be in time' is the watchword for the night.

The remains of George Gearle, steward of H.M. gunvessel Dwarf, who died of typhoid fever in the British Hospital, were interred en Tuesday with naval honors. The coffin was covered with a large Union Jack, and behind it marched a guard of Marines, 33 blue-jackets and some of the officers of the ship. The Marines fired the parting volley with admirable precision. Our native colleagues say they would like to see the same honours paid in this country to private soldiers and sailors as great England pays to hers when they die. It would be desirable, certainly.

The following, about lobsters, is queer:—"Lobsters and Thunder.—So great a dread have lobsters of thunder that they will cast off their large claws when a loud clap occurs or when a gun is fired. In olden times captains of vessels often extorted blackmail from fishermen by threatening to fire cannon over their fishing-grounds, knowing full well that the concussion would cause the lobsters to cast their claws, thereby destroying their value."

There is good news about the Andine Railway extension. The earthworks are completed from Fraga 89 kilometres towards San Luis, and 1,400 metres of rail are laid down, but the sleepy proceedings of the sleeper contractors delay the works greatly. There are 1,300 navvies at work on the line.

Archbishop Aneiros left for Montevideo yesterday, accompanied by numerous clergymen: he goes to consecrate Monseñor Yeregui, who has been named Bishop of Canope 'in partibus.'

There was some talk yesterday of the Latorristas in this city having hired a small steamer, so we suppose the curtain is about to rise on the popular South American comedy 'Regeneration.'

The fellows arrested for their contemplated forgery of Provincial Bank notes refuse to open their mouths or give the faintest information to the police. One of them, a Spaniard, and leader of the gang, is very violent and says he would prefer they had shot him dead rather than have arrested him.

The breaks-down of vasura carts on the tramway lines are more numerous than ever. There was another superb snag-up in Calle Rivadavia yesterday.

There will be another grand wedding in Flores, on the 21st, when Colonel Rodriguez will lead Miss Brach to the altar of Hymen. The President of the Republic will act as 'padrino' on the happy occasion.

There was n't much of an audience at the Opera House on Tuesday to hear the Italian version of 'Our Boys'—'Nostri Bimbi.' More's the pity, as the piece was splendidly performed, although the translation into Italian weakens the text terribly.

The National Senate has recommended the adoption, without any modification whatever, of the Government Bill creating a new Bishopric in the province of Buenos Aires and the subdivision of the diocese of Salta into three sees. Our highly esteemed countryman Dean Dillon will most probably be the new Bishop of Buenos Aires, taking his title probably from the new capital of the province.

We commend a new means of locomotion to our athletic friends, 'Perkin's Steam Tricycle' is capable of travelling at the rate of 10 miles per hour upon the common roads, without any escape of steam, or showing any indication of being driven by steam. The machine in question consists of an ordinary 'tricycle,' with the addition of three metal boxes, containing a complete steam engine, a condensing apparatus, and a reservoir containing methylated spirit, which is used for the generation of steam.

An awful case of sudden death occurred two days ago in an almacen in Calle Maipu. A man entered, ordered a glass of spirits, which he drank off and immediately afterwards fell dead.

ON 'CHANGE.

Sept. 13th

Patacons	26.50
Cedulas A	99⅝
National Bank Shares	122
Old Gas Co. Shares	2000

The gold sales to-day were larger than usual, and it is the opinion of many that people are borrowing gold at the banks and selling same on Change. The cash sales to-day amounted to 209,200 pats, of which they said 100,000 pats was a loan made in gold on Bank Shares. Gold opened at 25.50, rose to 25.55, and closed at 25.60. For end of month 210,000 pats sold at 25.60. Total day's sales, 449,200 pats.

Cedulas rule weak, opening for cash at 99½, and closing at 99⅝. One party sold freely for October at 99½, and for Dec. 31st 10,000 sold at 99½.

Old Gas Shares again look up, several holders refused to sell to-day at 2,000. Two small sales at that rate made 168 shares.

Nat. Bank shares are still the lion stock of the market, and there is no speculation going on in anything else. The chief feature in to-day's business was the large amount of stock sold cash and at improving prices; the cash sales reached 1257 shares, opening at 120, jumping about until they reached 123, and then closing with a sigh at 122. One broker bought nearly everything cash; for to-morrow 91 shares sold at 122. For the end of the month, however, the chief business was done, and so enormous will be the vencimientos for that date that many look forward to it as the end of the world. The sales for 30th Sept. amounted to 7700 shares, opening at 123, dropping to 120, then rushing up to 124, and finally closing at 123. For Oct. 31st, 500 shares sold at 124; total day's sales up to 2 o'clock 9568. It is quite evident to all who closely watch the market that the Italians are gradually getting out of the stock, the heavy holders cannot sell themselves, but they sell through unknown snipes, whilst apparently the market is maintained by a well-known broker who as yet never saw Vesuvius. Nor is it at all likely in such an extremely speculative market as this, that we shall have any pause in the present business until the market is supplied with other stocks as subjects af speculation. Cedulas appear to be too good a stock for the brokers to dabble in, they pay a splendid interest and investors prefer to hold them to Bank Shares. What we need on the Bolsa to check the present speculation in Bank Shares is more stock, and if the Mortgage Bank carries out its programe and issues 6 per cent Cedulas, it will always be a move in the right direction and help the ring, the Bolsa and the market.

Letters from San Luis are all about the railway; they have 1300 peons working, and the earthworks done for 1100 metres beyond the new station Fraga, but they want sleepers, and the recent rains have done damage.

The sale of two estancias in Ayacucho reported—one 884 hectares for 301,484 m/c., and the other a large place, 2428 hectares, for 800,000 m/c. Estancias were never more saleable than at present.

Letters from Rosario advise very large arrivals of minerals from the Provinces. In Mendoza they have given Mr Mendez a tramway concession, and we hear of large troops of cattle coming down from San Juan to the Buenos Airean market.

Mr Bean, who has arrived back from Paraguay, was enveloped in friends; he says that at the peak of Lambaré just as they approached Asuncion was the finest sight of all; he visited Paraguari, Villa Rica and Pirayu, and was much charmed with the scenery of Paraguay, which he says reminds him of Wicklow.

The Plaza Once is being all closed in, soon even the very barraqueros wont know the place.

To-morrow the Argentine Bank meeting comes off; the moratoria of this concern was the greatest of all blunders, and should be a lesson to this market henceforward.

The Live Cattle Export Company we hear is wound up by the Courts; it never amounted to much, being before its time.

The sale of an estancia at Rauch, 674 hectares, is reported; fine land for 200,000 m/c.

The Toro sails for Bahia Blanca on 21st and the Villarino on 28th.

The sales at the ring were—

For cash 209,200 25.50–55–50
For Sept. 15th 80,000 25.55
For Sept. 30th 210,000 25.60
Sales, 449,200.

Cedulas—

For cash A 3,000 99½
For Oct. 31st A 75,000 99½
For Dec. 31st A 10,000 99½
Sales, 88,000.

Nat. Bank Shares—

For cash 1,257 shares 120–123¾–⅞–123–122
For Sept. 15th 91 shares 122
For Sept. 30th 7,700 shares 123–122–½–124 to 123¾–½–123
For Oct. 31st 500 shares 124
Sales, 9,548.

Old Gas Co. Shares—

For cash 58 shares at $2,000

At afterhours there was a complete change round in the market, gold ran up to 25.70 and shares dropped to 122 sellers, no buyers. The bull efforts in the share market have completely failed, and it is clear now that if the bulls want to win they must let the market drop, when it will rebound of its own accord.

They said on Change that the Government drew exchange to-day for £80,000, and that it was taken by the Provincial Bank. We acquired of parties who ought to know and they denied it; however, this was the news current in the room at 4 o'clock.

The news from Chile in the room was that at the Government House the treaty business is now given up for this year, and things will stand as they were till next session, and that telegrams from Chile made the Government here come to this determination. How much truth there is in all this it is impossible to say. We report the news as we heard it, and as explanatory of the reaction in gold, every one wanting to buy for to-morrow.

The hub-bub in the liquidation room was, it may be imagined, very great, and the squeeze strange to say seemed to be more in gold than in shares. To-morrow, perhaps, all the alarming news will prove pure speculative bolas.

Exchange was offering at 5.11 on France, 5.12 on Antwerp in paper, and 49⅝ in gold. We hear that next week the Bank will probably make its drawing rate of exchange on England at 48⅞.

In dry hides several purchases in Plaza at 160 pesada, 1 lb. tare.

Three or four large sales of wools from deposit reported at prices from 35 to 72, about 22,000 ar. in all sold; a well known lot from Giles sold. Many contracts for new wool made in North camps for account of artistes, prices 70 to 75. A great many Irish farmers now in town, they all say the camps and flocks never were better.

Mr Eugene Marcotte, the well known wool buyer from Verviers, who has arrived in the German steamer Frankfurt, was welcomed on Change. With pleasure we announce that he opens a new export firm under his own name; we wish him the very best success.

The R.M.S. Tamar clears to-morrow, mails close at the usual hour; she takes a fair cargo. The exchange operations for the mail have not been large.

After 3 o'clock fully 250,000 pats bought for end of month at 25.55, sellers ask 25.70.

400,000 pats borrowed on Nat. Bank Shares at 9½ per cent.

The Bell [Banda Oriental] wool, 9,000 ar., has been sold on contract at five pats gold. A truly magnificent price.

The Sales at afterhours were—

Gold—

Notwithstanding the all absorbing influence of Nat. Bank Share speculation, the news from the Southern frontier was spoken of. It is clear from the messages that the Indians stood fight and cut up the Government troops. It behoves the War Minister to take some immediate measures to protect the people down there. We see that Col. Farias who was sent off in such haste from here some 2 weeks ago has only just marched from Bahia Blanca to Fort Argentina, and then with horses that he has swept from the poor estancieros and pueseros; this is really too bad; the estancieros on the frontier want every horse they own, and the Government should buy horses here in the near partidos and send them down there, since to send down troops without horses is to aggravate the difficulty. General Roca is responsible for the increased value of the camps down there. Relying on his word and his Government people have settled down there, and this severe lesson the War Office has got is nothing to what it will yet receive, if the right measures are not at once taken. We give in another column full particulars of this Indian affair, which was so much talked of on 'Change.

The Argentine Republic is indebted to Mr J Lacroze for a very able defence of its credit in Paris. We hold for to-morrow Mr Lacroze's letter.

The Port Captain has just published a useful little book, which we recommend to parties interested in shipping matters; it is a register of all the vessels engaged in our coastwise and harbor trade.

To-day the *Republica* published an amusing article on the magnitude of the business going on in the Bolsa. The article should have been printed in Italian.

The inauguration of the telegraph line to Patagones was the event of the day yesterday. If the Indians don't walk off with the posts on the Colorado, all will be well, but Mr Sinclair, an English estanciero on the Rio Negro, says that the Indians on 10th August killed several boleadores of avestruces near the Colorado, and took some boys captive. This news chills our felicitations on the opening of the Patagones telegraph. Well we may say 'not enjoyment and not sorrow' is the proper motto for Governor Alvaro Barros on this telegraphic inauguration.

As we write, Governor Barros is marching at the head of some bullock carts and pumps on an expedition to Port San Antonio, he goes along the banks of the Rio Negro to the Sauce Blanca and then outs camp, in front of Mr Kincaid's, for the new port, with a view to making San Antonio the future port of Patagones and Rio Negro; the hitch is they can find no water, all the water found when the Villarino was there the other day is too brackish even for the cattle to drink. The lands at the Sauce Blanca are very superior, and first class for sheep and cattle.

The National Bank discounted yesterday 4 millions; this beats the Provincial Bank. The market cannot complain, since both Banks give more than the one Bank formerly.

The following real estate sales are reported—

In Belgrano 16½ metres front by 56 deep for 20,000 m/c.

Calle Corrientes, parish of Balvanera, 7 metres front by 52 deep, for 11,550 m/c; in the same locality 8½ metres front by 46½ deep for 11,650 m/c.

Calle Peru No. 718, 15 metres front by 67 deep, for 210,000 m/c.

In Canuelas a building site, 34 sq. metres, for 20,700 m/c.

Do do, 44 sq. metres, for 45,000 m/c.

Do do, 133 sq. metres, for 21,700 m/c.

In San Nicolas a piece of land, 2,351 square metres, for 790 pats.

In Belgrano a lot of land, 3,168 sq. metres, for 1,310 pats.

Calle Ecuador No. 67, 315 sq. metres, for 66,000 m/c.

The hide exporters of Rio Grande have issued the following circular, which may possess some interest for this market:—

"The undersigned exporters of bovine products hereby call your attention to the fact that it has been shown by the experience of the last few years in all consuming markets, that the receipt of dry hides by the system employed until now in this market, and in those of Pelotas and Porto Alegre, cannot and ought not continue.

"It has become necessary and indispensable that a value be established for refuse hides equivalent to what they bring in the consuming markets, for this reason:—that these markets, with a view of decreasing the proportion of refuse hides, increase the abatement in price and cause this abatement to weigh more heavily upon large proportions than upon smaller ones.

"The system of receiving in such manifest contradiction to the delivery to which exporters are subject cannot continue any longer, and the undersigned beg leave to announce that after the 1st of October next the conditions of their receipts will be as follows:—

On any lot of hides there will be allowed:—
5 o/o of refuse hides with an abatement of 100 reis per kilo.
All above 15 up to 25 o/o of refuse hides with an abatement of 150 reis per kilo.
All above 25 up to 35 o/o of refuse hides with an abatement of 200 reis per kilo.

"The undersigned beg you to make as well known as possible these resolutions, which will undoubtedly show to those who have to do with it, the necessity of taking greater pains with this product in the certainty that this painstaking will gradually do away with the discredit into which the dry hides of this province have fallen in all consuming markets.

Our talented German correspondent has sent us the following:—

Buenos Aires, Sept. 13th, 1881

Dear *Standard*,

The current, which you considered so strong, has turned much quicker than anybody might have expected.

Meanwhile George has gone to see what John Bull thinks of the conversion loan. The very same newspaper, which by its half million pounds bola &c. contributed the most (besides yourself) to bring the premium on gold down, writes in its yesterday's leader 'Situacion economica' as follows:—

"A los vicios propios de las condiciones de nuestro capital se unen ahora los efectos de la brusca valorizacion del papel moneda" ....

"En las provincias las transacciones son metalico, debido a lo cual, con la baja del oro en relacion al papel, se han encarecido todos los productos industriales de la Capital, lo que da alla por resultado, por una parte, una disminucion de consumos, y por otra la preferente importacion de articulos extrangeros (sic), que pueden ahora adquirirse mas baratos.

"La valorizacion del papel afecta tambien muchas las esplotaciones rurales ....."

After having given the advice to raise the import and reduce the export duties it continues:—

"Si esto no se hace, con el abatimiento de muchas industrias, y la supression de jornales y de beneficios, tendremos la disminucion inevitable de consumos, coincidiendo esto con un aumento de importacion, es decir, la crisis industrial y la crisis comercial (sic)."

Furthermore the writer states, that there will be a diminution in the National rents, and in general his points of view are just the same as those expressed in my letters of the 11th and 12th August, which were ridiculed by some parties on 'Change.

I am afraid, dear *Standard*, you will soon stand there isolated with your financial ideas and have to go to San Blas to write leaders for the penguins.

Yours truly,
GERMAN SUBSCRIBER.

Orden del Exmo Gobierno de esa Provincia
Con derecho a ubicar donde se quiera

Venta a Plazos
En nuestra casa San Martin No 51
El Martes 20 de September
A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo de cimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad, o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y dese do hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Venderemos a la mas alta postura y al contado los animales arriba indicados procedentes de la estancia La Verbena, propiedad de D Esteban Villanueva.

Estos animales son de gran tamano y lindo tipo, siendo su lana al mismo tiempo larga y fina, criados a campo tienen poca vista pero no dudamos que las personas competentes sabran apreciarlos.

Su origen han sido de padres de Gadegrast cruzados durante muchos años con Rambouillet puro y de ovejas de Perez Millan que fueron despues de D Laureano Ramirez a quien los compro el Sr Villanueva.

Los interesados pueden convencerse de la bondad de caros animales visitandolos en nuestra casa Alsina 78, donde se hallan en exposicion.

LATEST FROM BRAZIL.

A good winter is reported from the Province of Rio Grande do Norte.

From the passage of the emancipation law of 1851 up to the 1st ult. there have been liberated in the Province of Minas Geraes 1308 slaves at an expenditure of 1,318,473$988.

An effort is now making to abolish the 'empresa funeraria' of Petropolis —an undertaker's monopoly which is felt to be a grievous burden by the residents of that city.

The President of Rio Grande do Norte has opened a supplementary credit of 3,802$ for the postal service of that province, the imperial budget appropriations proving insufficient.

The receipts of the Minas Postal department during the fiscal year 1880-81 amounted to 95,000$, and the expenditure to about 221,000$. The province contains 290 post-offices and the mail service is carried on over 127 routes.

A new 'city' called Ilheus was solemnly inaugurated in the Province of Bahia on the 14th ult. The inauguration of anything generally means a beginning; therefore Ilheus begins half way up the ladder and without undergoing the preliminary stages of 'hamlet and 'village.' The new 'city' is located on one of a group of four islands, the total population of which in 1872 was 4,631.

According to the 'relatorio' of the President of Minas Geraes, presented to the Provincial Assembly on the 7th ult., the public debt of that province now amounts to 1,894,536$, as follows, aside from railway indebtedness:—

Funded 6 p.c. apolices...	1,327,000$
Savings Bank 7 p.c. loan..	567,536
	1,894,536$

A raid on a tribe of Indians residing on the Rio Pardo took place in the Province of Bahia during the latter part of July, resulting in the massacre of about two hundred of the Indians. The raiders are described as 'some individuals of irregular life and questionable profession,' who were assisted by 'other Indians already civilized.' A police inquiry is to be made into the disgraceful outrage, but it is doubtful whether any good result will spring from it.

The election season in the province of Maranhao—not to take the preparations for the entertainment into account—is to open on the 31st of October next with the election of Deputies to the General Assembly. On the 6th of November following a triplicate list for Senators will be chosen, and the 10th of November there will be a grand outburst in the election of Provincial Deputies. Such a thing as combing all these elections into one seems to have been overlooked.

The city of Campos has a registered voting population of only 698.

The July receipts of the Ceara Custom House amounted to 182,735$039.

The July receipts of the Maranhao Custom House amounted to 240,414$463.

The late Barao de Alfie, of Itabira Minas Geraes, bequeathed their freedom to 200 slaves.

A literary club has been organized at Braganca, Sao Paulo, whose members are all slaves.

The *Diario* of Sorocaba, Sao Paulo says that a tannery is under construction in that city, the machinery coming from the U. States.

The Santos Custom House paid over to the correspondent of the Banco do Brazil between June, 1879, and August, 1881, the sum of 11,100,000$

According to a local sheet of Itatiba, Sao Paulo, the coffee crop in that locality this year is abundant, the aggregate being estimated at 550,000 arrobas.

The machinery for a cotton factory at Sorocaba, Sao Paulo, established by Sr Manoel Jose da Fonseca, is now being received. The factory building is nearly completed.

The President of Maranhao has designated the 6th of November for the election of a triplicate list from which a successor to the late Senator Mendes d'Almeida is to be chosen.

The election of Deputies for the next provincial assembly of Maranhao will be held on the 10th of November next, and the assembly has been called to meet on the 8th of February.

The provincial assembly of Minas Geraes is discussing a bill appropriating 4,000$ to assist municipal council of Itabira in building a 'forum,' and 3,000$ in building a theatre.

A project for an industrial exposition in the city of Sao Paulo is now under discussion in that province. The *Provincia* commends the enterprise in the strongest terms, and the prospects are good for its early realization.

It is announced that a vein of coal has been discovered in the bed of a stream at Ypanema, Sao Paulo, near the iron works. The vein is said to have a thickness of thirty centimeters.

The 'Fazenda Angelica,' of Rio Claro, Sao Paulo, one of the most important plantations in that province, has been purchased by the Barao do Grao Mogol. The property has been for some time owned by the New London and Brazilian Bank.

The republicans of Sao Paulo are carrying on a vigorous canvass for the coming general elections. Several prominent leaders are holding public meetings in various parts of the province and are frankly discussing political questions before the people.

The Ceara police authorities have drawn up a list of prices which porters are permitted to charge for their services. The charges range all the way from 40 reis for an empty tin trunk to 2$000 for a wardrobe. A hat box may be carried for 60 reis, a bird cage for 80 reis, a vase of natural flowers for 100 reis, and an iron bedstead for 1$500.

A contributor to the *Diario de Pernambuco* says that before the great 'seca' the province of Ceara had herds of cattle to a value of 22,000,000$ which were almost totally destroyed, their value after being only 300,000$. The export of sugar was reduced from 2,000,000 kilos to 34,733 kilos in 1878, and 280,672 kilos in 1880. The cotton export was reduced from some 4,000 000 kilos to a few thousands, and that of coffee from 2,615,573 kilos in 1877 to 135,517 kilos in 1880.

A German bark is now at anchor at Parahyba discharging material for the Conde d'Eu Railway.

The Mogyana railway directors began paying their 16th dividend on the 1st inst., at the rate of $7,000 per share.

The Government has declared the concession for the Madeira and Mamore railway to be lapsed, and announces its purpose to construct the road at public expense.

It is announced that the Leopoldina railway is to be extended from S. Geraldo to Arassuahy, on the Rio Arassuahy, Minas Geraes, a distance of some 600 kilometers.

The president of Rio Grande do Norte has opened a supplementary credit of $6,000 for the expenses of the fiscal engineer of Natal a Nova Cruz railway, the allowance made by the Minister of Agriculture proving insufficient.

The 24th dividend of the Paulista railway company will be paid at the company's offices in Sao Paolo from this day forward. The rate is 7.6 per cent, or $7,600 per share, and 7 per cent on the entries for stock in the Belem branch received up to the 30th June.

The Emperor, attended by the Minister of Agriculture and other prominent officials, left this city on the morning of the 28th ult. to inaugurate the Oeste de Minas railway. The imperial party passed over the line on the afternoon of the same day, arriving at S. Joao d'El-Rei at 10 p.m.

The directors' report of the Paulista Railway for the half year ending June 20th last, shows that the passenger traffic of that line amounted to a total 82,690, of which 8,398 were first-class, 69,083 second-class, and 5,209 round trips. This is a falling off of 1,569 passengers from the preceeding half year. The freight traffic amounted to a total of 42,592½ tons; of which 27,093½ tons were imports, and 15,499 tons were exports—a considerable decrease. The total receipts were $835,068,800, and the expenditures $400,705,041, leaving a surplus of $434,363,759. By the diversion of money voted for the payment of certain debts at the last general meeting, the directors were able to declare a dividend of $7,600 per share.

THE STATE OF IRELAND.

A procession of a couple of thousand people, accompanied by four bands, banners, and about a 100 torchlights, marched to-night to Mr Dillon's house, in N. Great George's street, to make a demonstration in his honor, and congratulate him on his release. The proceedings were very enthusiastic. The banners principally consisted of American flags. In response to repeated calls Mr Dillon came out on the steps and was greeted with vociferous cheering. He said:—Citizens of Dublin, I feel very deeply your kindness in coming to welcome me here to-night. I feel it all the more because it is an answer to the statement which has been made so frequently that the people of Dublin were indifferent to the exertions which were being made to save the people of the country (hear). I feel it all the more, because I do not take this demonstration as a personal compliment to myself, but as a declaration on behalf of the citizens of Dublin that they sympathise with the men who endeavoured to save their fellow-countrymen from starvation, and who succeeded in preventing famine during the past winter. I also feel your kindness all the more because the account of your coming here to-night will be taken as a sign by the men whom I left behind me within Kilmainham Gaol (cheers) that they are not forgotten by the people of Dublin (cries of no, no) any more than they are forgotten by the men from whose doors they turned back famine and despair, and that the citizens of Dublin have as warm a feeling for the men who are now locked up in Kilmainham Gaol as the peasantry of their own native country from which they came. In conclusion, he said he expected to revisit Kilmainham to-morrow, and inform them of this demonstration.

A Sheriff's sale took place to-day at Tallaght, co. Dublin. Some farm stock belonging to the tenant was sold for rent to Mr Dudgeon, of the Emergency Committee. A cow and a horse were escorted through the city to the quay for shipment by a large body of constabulary and Dublin police. A large crowd followed, shouting 'Down with Buckshot Forster! Down with Landlordism!' It was expected that some difficulty would be found in shipping the animals; special constables were told off to guard them, and they were afterwards shipped for Liverpool. There were nearly one hundred police present to preserve order. There was no disturbance.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)
The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.
